

**ESP32**

```
graph LR; ESP32[ESP32] <-->|Data| BUZZER[BUZZER]; ESP32 <-->|Data| MPU6050[MPU6050]; ESP32 <-->|Data| EC800K[EC800K];
```

The diagram illustrates the data flow between an ESP32 microcontroller and three peripheral components. The ESP32 is represented by a large red rounded rectangle on the left. To its right, three smaller rounded rectangles represent the BUZZER (green), MPU6050 (blue), and EC800K (purple). Each peripheral is connected to the ESP32 by a bidirectional arrow labeled 'Data', indicating two-way communication.
